

## **LTDA response to Wes Streeting MP's Ten Minute Rule Bill on PHV operators**

Steve McNamara, General Secretary of the Licensed Taxi Drivers Association (LTDA), thanked Mr Streeting and pushed for Government action: "We estimate at least one in ten minicabs currently operating in the capital is uninsured. Clearly MPs are concerned, and we're grateful to Mr Streeting for securing a debate to raise awareness of the problem and ask the Government what it plans to do. This is a massive public safety issue, but neither TfL nor the Government are planning to do anything about it. It's not about us vs. Uber, it's about public safety and the regulator failing to do its job."
