

TfL announce that all cabs will take card payments from October

Steve McNamara, General Secretary of the LTDA, said: “We welcome TfL’s decision to make every black cab in London accept card payments, which will benefit customers and drivers alike. Most taxi drivers already accept card payments, but from October our customers can be certain that when they hail a cab, they are not only getting a safe, reliable and professional service, but will also be able to pay how they like, be it card, contactless or cash. This will make things simpler for customers and increase demand for drivers.”
